**For Immediate Release: February 4, 2004**

### **IRD AWARDED DATA COLLECTION EQUIPMENT AND SOFTWARE SERVICE CONTRACT BY CALIFORNIA TRANSPORTATION DEPARTMENT**

**Saskatoon, SK February 4, 2004** – International Road Dynamics Inc. (IRD) announced today that it has been awarded a contract by the California Department of Transportation (Caltrans) to provide equipment, software maintenance, and on-call service for their statewide network of data and PrePass™ weigh-in-motion (WIM) sites, consisting of over 150 IRD and PAT bending plate and piezo systems. This service agreement is for a five-month period and is scheduled for completion on May 31, 2004. The total value of this contract is approximately CDN \$630,000.

Caltrans engineers stated that they are pleased with the systems and support that IRD has provided in the past, and look forward to working closely with the Company on this new contract. This will be IRD's fifth consecutive service agreement with Caltrans since 1995.

IRD's expertise and experience in the WIM Data Collection field allows customers to receive a complete package of service from one vendor. IRD offers design, manufacturing, installation, collection and post-processing of data, report generation and maintenance of data collection systems. The IRD Service Support Team has over twenty years of technical and customer service experience and is able to manage all operational needs for Data Collection and other Intelligent Transportation Systems (ITS).

Mr. Terry Bergan, IRD's President and CEO commented, "This type of project is in line with IRD's image to be Customer Driven and to supply the highest quality equipment, exceptional field support and ongoing long-term system management to our growing customer base. Our technical expertise and drive to provide the highest levels of customer service will help us meet a common goal with Caltrans to provide the best weigh-in-motion data with minimal system down time."

IRD is a highway traffic management technology company specializing in supplying products and systems to the global Intelligent Transportation Systems (ITS) industry. IRD is a North American company based in Saskatoon, Saskatchewan with sales and service offices throughout the United States and overseas. Private corporations, transportation agencies and highway authorities around the world use IRD's products and advanced systems to manage and protect their highway infrastructures.
