

iANALYZE™ Vehicle and WIM Analysis Software

iANALYZE™ software is available in three versions to suit user requirements.

iANALYZE™ Lite

- Supports one type of IRD counting and classifying equipment (ie. TCC 540, 540 WIM, TRS, etc.) as selected by the user
- Provides a standard comprehensive set of traffic and WIM data analysis reports including TMG formats
- A single user license supports up to 10 sites

iANALYZE™ Extended

- Supports all IRD counting and classifying equipment and other vendor's equipment
- Provides data quality checks and graphing capabilities
- A single user license supports up to 50 sites

iANALYZE™ Enterprise

- Trend analysis features
- Web Module allows a configurable number of users access to data

IRD Autopoll Software (sold separately) can be configured to download data from remote traffic data collection sites

R - Reduced capability

The image shows three screenshots of the iANALYZE software interface. The leftmost screenshot is the 'FHWA TMG Station Information' dialog box, showing fields for FIPS State Code (South Dakota 46), Station ID (ABC123), Functional Class (RURAL Local System 09), and various classification and weighing method options. The middle screenshot shows the 'Weekday By Speed' report, which includes a bar chart of 'Number of Vehicles' versus 'Speed (mph)' and a data table below it. The rightmost screenshot is the 'Setup Available Reports List' dialog box, which allows users to select or deselect reports such as 'Site Summary', 'Class By Hour', 'Lane By Hour', etc.
