

HAZTrack Mobile™ A Protection+ System

From the point of origin to the destination, HAZTrack Mobile provides real-time identification of the status of the driver, vehicle and HAZMAT load throughout the United States, Canada and Mexico.

HAZTrack Mobile manages three critical functions:

1. Identification and registration of carriers
2. Secure identification of drivers and equipment
3. Electronic monitoring of location and security status of the driver, vehicle and load while enroute including adherence to the trip plan.

HAZTrack Mobile™ provides three levels of implementation:

- Internal Company Management by classification
- Compliant with CFR 49 tracking requirements
- Third Party verification of compliance

IRD is widely recognized as a supplier of Commercial Vehicle Transportation technology throughout North America. IRD Commercial Vehicle Systems help government agencies effectively manage weight enforcement, border crossing and general commercial vehicle traffic with minimal impact on compliant commercial vehicle operators.

HAZTrack Mobile™

Visibility, Authentications, & Security

HAZTrack Mobile™

Vehicle location • Report Anomalies (Threat Based) • Positive Driver Authentication

Typical HAZMAT information monitored:

- Deviation from prescribed route plan
